

TASIE PROJECT

Trauma-Informed ACEs Screening & Intervention Evaluation Project ECHO®

Offering:

- A \$15,000 stipend
- 25 MOC Part 4 Points
- 13 CME/MOC Part 2 Points

Request For Proposals (RFP)

The TASIE Project is funded by the Health Resources & Services Administration & is being conducted through partnership with the New Jersey Chapter, American Academy of Pediatrics, Center for Youth Wellness - a program of Safe & Sound, & Kaiser's Center for Community Health & Evaluation. Pediatric practices across the United States are invited to apply.

We are pleased to announce the Cohort 2 RFP application is open for the TASIE Project!

Selected practices will participate in a 9-month Quality Improvement Project ECHO program (September to May) & receive tailored clinical QI coaching to facilitate the adoption of an Adverse Childhood Experiences (ACEs) screening protocol & strength-based, trauma-informed services relevant to the site's delivery model & patient population. The TASIE Project team educates pediatric practices to use the Seven Domains of Wellness, & research-backed interventions that can be incorporated into a typical well-child visit. The Seven Domains of Wellness include: Supportive Relationships, Supporting Mental Health, Sleeping Well, Eating Healthy, Using Movement, Practicing Mindfulness, & Spending Time with Nature.

Benefits of participation include:

- Identify & implement an ACEs Screening & intervention protocol that's right for your practice & patient population
- Utilize Project ECHO's "All Teach, All Learn" methodology to share & learn from other colleagues in the field
- Personalized expert coaching guidance for your practice

The application is available now & due on Friday, July 29th. Selected sites will be notified on Friday, August 26th. All pediatric practices are welcome to apply.
